

DILEMMA SOLVE

CITRUS BASED CONCENTRATE

- *No harmful vapors
- *Non-toxic
- *Cleans and deodorizes
- *Degreases
- *No chlorinated solvents

CAUTION: Keep out of reach of children. Harmful or fatal if swallowed.

05B12 Net Contents: 1 GALLON

A new trend setting formulation that meets today's cleaning needs and odor problems. Powerful natural degreasers and deodorizers are specially blended to outperform the conventional hazardous degreasers. This multi-purpose concentrate instantly emulsifies grease, oils, and fats without the use of harsh acids, alkalines or petroleum solvents.

This organic based extract has an extremely strong natural citrus fragrance to deodorize effectively even under the worst conditions. The vapors from this product are not considered harmful. This allows for a wide variety of uses indoors as well as out.

Ideal uses for this product include degreasing concrete floors, equipment, trucks, motors and metal surfaces. This product will remove most resins, adhesives, printing inks, decals, rubber tire marks, tar and asphalt and most soils that are removed by conventional solvent based degreasers. This solvent is also an effective drain cleaner, deodorizer and maintainer.

DIRECTIONS FOR USE:

For heavy cleaning, degreasing, and rubber tire removal on concrete floors, dilute product 1 to 9 with water until a uniform emulsion is formed. Let stand 2 minutes, scrub thoroughly and rinse off. **SURFACE DEGREASING:** Add 2 to 4 ounces of product to one gallon of water. Apply by spraying, brushing or mopping. Allow solution to stand 5 minutes. Rinse thoroughly. Product may also be applied straight and pressure washed off with water. **DRAIN CLEANING:** Pour 6 to 8 ounces of product directly into clogged drain. To control severe odors dilute 2 ounces of product with one gallon water. Mixture can be sprayed or mopped onto surface. Areas for use including sewer plants, garbage trucks and dumpsters, industrial plants, restaurants, hospitals, schools, bathrooms and other similar areas.

CAUTION: Do not store or dispense near heat or open flame. Contains Aliphatic Hydrocarbons. Keep container well sealed when not in use to prevent evaporation loss. Do not ingest. If this does occur, do not induce vomiting. Call a physician immediately. For eye contact, flush with water for 15 min. And apply commercial boric acid solution. Seek medical attention if irritation persists. For skin contact, wash area with soap and water and apply an emollient cream. Rinse empty container before discarding in an authorized landfill site.
